

Subject: RE: Phosphorus readings Lake Skootamatta

Hi Gordon,

Here are your Lake Partner Results for 2008:

Lake Name	Site Description	STN	Site ID	Date Sampled	TP1 (ug/L)	TP2 (ug/L)
Skootamatta	Upper Basin	4986	1	26-May-08	7.9	10.0
Skootamatta	Lower Basin	4986	4	26-May-08	7.8	7.5
Skootamatta	Upper Lake	4986	6	26-May-08	8.8	7.2

Note that you can take an average of TP1 and TP2 to get the result for each site. You could also take an average of all of the numbers to get one number for the whole lake.

Anna
