

Thank you for the opportunity to answer the S.D.R.A questionnaire even though I'm not a nominee in your ward, I will try to keep it short and to the point.

1. The Township of Addington Highlands faces the same problems as many other corporations in the next few years, critical staff are nearing the age for retirement and competent staff needs to be recruited for the wellbeing of the township for decades to come. I have been an employer for 15 years and would bring experience to council to make this transition.
 2. As partner in Pine Crest Marine we like other residents depend on seasonal residents for our livelihood and staying in touch with seasonal residents needs is quite easy with the well developed cottage associations in the area.
 3. The township must keep moving forward some stimulation may be needed how ever a one person solution will not benefit everybody in the township this needs to be developed by many different parties. Until this is possible the best value per dollar may be the only option.
 4. Input from lake area associations is critical in the process of creating happy mediums for all that reside in this great municipality. As in the past with the KFL&A Public Health Unit issues with septic inspections download the lake association was essential in protecting our services and environment. Thank You.
 5. Yes I support consolidated services we can get more services for less per tax payer.
 6. Information collected by lake area associations contributes to the understanding of the lakes and areas specific needs and requirements and should always be considered when issues regarding Official Plan and Zoning By-Laws. Most of the economic activities in this area depend on the natural environment such as: logging operations and recreational activities and should be protected to preserve our township. My love for this area is my commitment and if elected or not I will always hold the sustainability of this area with the utmost concern.
 7. There should be no need for a balance between regulation and enforcement the Official Plan and supporting by-laws are in place and should be enforced.
 8. Yes the website should be more up to date with minutes of meetings and operations in the municipality.
-

Thank you for this opportunity to share my thoughts with you and I will look forward to your reply.

Adam Snider Councillor ward 1

Introduction: For those I haven't yet met I'm 33 years old, married with three children I live and co-operate a tourist oriented business in Addington Highlands Township. I have always been self employed with a strong since of business. I believe in honesty and a good work ethic.

Platform: I will not make any promises that I can't fulfill. But given the chance I will be the best councillor possible. I would listen to and represent constituencies concerns. Will see that services in area be protected and enhanced. Would be prepared for and have topics researched before meetings to be able to make the most informed decision for the people of this township.

Reason for Nomination: Because of my love for this area!

I would like to thank you for your interest and will be waiting to hear ideas and concerns.

Thank You Adam Snider
