## ***SDRA SPRING 1998 NEWSLETTER***

### **WHAT A WINTER !**

We certainly had a variety of weather conditions this winter. For those of you who headed south it was not the warmest, however for those of us left behind in the city of Toronto we felt like winter passed us by! Unfortunately, our friends and neighbours in the north and northeast felt the sting of an ice storm I'm sure they will never forget. It was heartening to hear how the permanent residents of Skootamatta Lake pulled together to help their neighbours during this crisis. We hope everyone survived this time without any major damage.

Our warm spring has prompted many cottagers to open up early and get a head start on summer with getting repairs out of the way. Let's all look forward to good weather!

Sad to say, with Spring we also seem to attract break-ins. This Spring has been no exception and from all accounts this year was particularly bad. Our sympathy is extended to all of those cottagers who were affected.

### **SUMMER OF '97**

Our summer flew by with minimal rain and record temperatures. All of our annual events were well attended and we hope enjoyed by all.

Some of our young people experienced a special treat by going to sailing lessons two to three times a week given by John Teed (and Rosemary who also managed lunches). The SDRA cannot thank John enough for all of his time and effort into teaching these youngsters the love of sailing. (Now if only he could teach some of us older folks!). The Annual Sailing Regatta winners were as follows:

#### **ADULTS**

1<sup>st</sup> Place.... John Teed  
2<sup>nd</sup> Place... Frank Halperin  
3<sup>rd</sup> Place.... Brad Heney (Who had a great deal of help from Stephanie Heney!)

#### **YOUTH (TEAMS)**

1<sup>st</sup> Place     Ryan Nowell  
                    Cameron Garnish  
2<sup>nd</sup> Place     Melanie Nowell,  
                    Lindsey Bessie and Toni Laws  
3<sup>rd</sup> Place     Melissa Nowell and  
                    Evan Laws

BEST EFFORT went to Joel Arthurs

We hope everyone enjoyed this event and we hope to have a much larger turnout for next year.

### **FISHING DERBY**

We changed our fishing derby last summer to run the whole months of July and August and it was a great success.

Our Winners were:

**ADULTS**

1<sup>st</sup> Place Pickerel: Charles Sheppard

1<sup>st</sup> Place Bass: Don MacLellan

1<sup>st</sup> Place Pike: Andrew Cole

**YOUTH**

1<sup>st</sup> Place Pickerel: Tommy Vivirito

1<sup>st</sup> Place Bass: Brandon Dacuk

1<sup>st</sup> Place Pike: Cameron Garnish

### **TEEN DANCE**

Skootamatta Lake Marina held a Teen Dance, which from all reports (young & old) was a great success. Boat taxi's home were provided by many of the parents while they reminisced of days gone by. It was a great way for the young people to meet each other. New and old friendships were started and there was even some dancing! Donna & Barry hope to organize another dance this summer. So get your dancing shoes out. Maybe we can convince

them to have a dance for the older crowd?

### **BOAT RAMP**

Always a source for good discussion we once again bring up the subject of the Boat Ramp, which is maintained by the SDRA. Last summer a great deal of work was put into replacing all of the facing boards on the cement dock. All of the men on the executive worked the entire day and a fine job they did. Special thanks to Gord Kissman who also helped and Barry Smith who provided hydro and needed tools.

Your executive attended several council meetings and have received approval to commence charging a fee for boat launching. This is the only way we can raise funds for repairs and maintenance. The marina has kindly offered to accept this fee during operating hours and the current steel drop box will be used when the marina is closed.

**PAID SDRA MEMBERS WILL NOT BE REQUIRED TO PAY**  
The fee is intended to cover the costs of non-members or businesses using the facility. The waiving of the fee however is only intended for Paid Residential SDRA Members Only. We cannot however extend this fee waiver to SDRA members operating a

business that would require boat launch usage.

This process is an honor system and we certainly hope we can count on everyone's co-operation and patience as the fee is implemented.

The fee will be \$5.00 for both in/out, which we feel, is very reasonable.

A request has been also made to the Township for a donation of \$5,600.00 to help defray the some of the costs required for improvements, repairs and paving.

We would like to point out that the cement dock is NOT FOR OVERNIGHT DOCKING This area can get very rough and we cannot be responsible for any damage caused to boats left there.

### **BEACH CONDITIONS**

The two main beaches on Skootamatta have improved immensely and we hope it continues. However, there has still been glass found on several occasions at Big Island. Please remember to take a garbage bag with you when you go to the beach. If we all clean up our own garbage there should not be any left for the next visitor .

We remind everyone to not leave fires unattended. If you find an unattended fire, please put it out

### **SEPTIC CHECK**

As our lake gets older so do our septic systems. An unchecked septic can cause serious damage to our lake. Sometimes the damage can take years to correct. Please, for the sake of Skootamatta Lake have your system checked and help keep our lake clean for generations to come.

### **BOATING SPEED NOTICES**

Legislation has been passed to restrict the speed of recreational boats to 10 kilometers per hour within 30 metres of shore (This means you too Willy!) This is now the law in Ontario.

FOCA is making available for sale, water and weatherproof signs 25" high by 19" wide. They cost \$8.50 plus G.S.T. and \$4.00 handling for 1-4 signs. A sample of the sign is attached to your newsletter. Order requests can be mailed to :

FOCA

215 Morrish Road Suite 101

Scarborough, Ontario

M1C 1E9

416-284-2305

NOTE: The one exception to this law is pulling a water skier travelling perpendicular to the land

## **ROCK MARKERS**

Brian Dicks has already put rock markers in the lower end of the lake. Jim McKay has marked Jacques Bay. The executive thanks both of them very much and any other cottagers who have marked rocks in the lake. If you are aware of any rocks posing a threat near your shoreline, please mark them or contact your executive and we would be pleased to place a marker. Bill Garnish and Ron Nowell plan to have the remaining rocks marked no later than the end of May.

## **FOCA/COFA**

During our AGM last summer, Dave Dacuk graciously accepted the role of being our FOCA/COFA representative. FOCA is our representative when dealing with many issues including Native Land Claims. We have not been advised of any further developments with respect to the Native Land Claim /Lands for Life in our area other than the recent newsletter sent out to all residents in March 1998. We will have copies of this letter for distribution at our AGM. Please feel free to ask Dave about any concerns you may have with FOCA/COFA issues .

## **MNR REMOVAL OF EGGS**

Ron Nowell, Vice-President attended the April 20, 1998 Council meeting to voice the SDRA's concern that eggs were being removed from Skootamatta Lake several days prior without our approval. The MNR did not advise the SDRA nor did they advise COFA. Needless to say we were very upset about this.

The situation was reported in the local paper and a letter was sent to the MNR from the Council supporting our request that any future removals must be done with proper approvals. The MNR verbally promised to replace the eggs with "pickeral fry" of approximately 250,000. Our FOCA/COFA Rep, Dave Dacuk has confirmed the "fry" were placed in Skootamatta the first week of May.

## **FOCA LAKE STEWARDSHIP PROGRAM**

This program is relatively new to us and is completely dependent on volunteers such as you to get it running. Doug Clark enthusiastically volunteered to be Skootamatta Lakes representative. However, FOCA only just announced the release of a how-to manual for Lake Stewardship. The manual has been ordered and we hope it is received in time for the

AGM. Stewardship issues involve water quality, wildlife, and bird conservation among many things. This is not a one-person responsibility IT IS EVERYONES RESPONSIBILITY. So please give Doug Clark a hand with the job.

### **CANADIAN COAST GUARD**

We are attaching a warning from FOCA with regards to the CCG'S recommendations for boating regulations, vessel licensing and enforcement. Please let your opinions be heard by contacting the names provided.

### **COMMUNITY POLICING**

Ron Nowell, Vice-President has given valuable time over the winter dealing with the issue of Community Policing. This facility is completely driven by the number of members wishing to volunteer time to it. Please bring your questions to the AGM. In order for this to succeed we will need a liaison and several volunteers.

Given the increase in break-ins we really need to put this in place. This is a large undertaking and will need a committee separate from the lake association for it to have any impact.

**PLEASE GIVE THIS SERIOUS THOUGHT AND HELP BY**

### **VOLUNTEERING YOUR TIME.**

### **COTTAGE WATCH**

"Cottage Watch" is a partnership for cottage safety between the OPP, FOCA and your Cottage Association. Anyone interested in starting this program please feel free to contact your executive. Please remember this is strictly a volunteer program and not a business venture. This program differs from Community Policing as it is run only by volunteers very much the same way as Neighbourhood Watch/Block Parents programs currently underway in the cities. The OPP will recognize efforts made and COFA will provide the starter kits.

### **GREAT ONTARIO DIP-IN**

During Canada Week, June 28 to July 5, 1998, Ontario's cottager's will be dipping into water as part of an ongoing campaign to measure the health of the provinces 250,00 lakes. By joining the dip-in you can help your cottage association contribute to the documentation of the province's water quality. Dipping-In refers to Secchi disc dipping which is a do-it-yourself method of testing the lakes clarity. We have attached a sample Secchi disc for your use.

## HOW TO BUILD A SECCHI DISC

Cut out the disc from the sample provided and attach it to a clean paint can lid or other similar base. You will also need a weight.

A hockey puck works very well as a weight.

Drill a hole in the centre of the disc and the weight.

Mark a ¼" thick rope in metres using a waterproof marker. The rope should be at least 10 metres in length.

Thread the rope through the disc and weight and secure using washers and a nut. Tie the rope to an eyebolt or handle.

## HOW TO TAKE A READING

Take the reading away from shore in the deepest part of the lake, over the shady side of the boat. Do not wear sunglasses.

Lower the Secchi disc into the water. Record the depth it disappears. (Reading A)

Slowly raise the Secchi disc a few centimetres recording the depth at which it reappears (Reading B)

Average the two readings using the formula  $(A+B)$  divided by 2.

Drop off your reading along with your name and reading location at Skootamatta Marina before **JULY 20/98**. The SDRA will submit the readings to FOCA and post the results at the marina in early August. PLEASE HELP US by participating.

## ANNUAL GENERAL MEETING (AGM)

**Same day ,Saturday July 4/98  
10:00a.m. Held on the hill at the  
horseshoe pits. Rain location will  
be at the marina.**

Let's have a better turn out this year. This is your meeting and your issues. This year we will not be having any outside speakers so we can devote more time to a question forum from our members. If you have anything specific you want us to look into before the meeting please do not hesitate to contact us. BRING YOUR LAWN CHAIRS.

## NORTHBROOK IGA

For the past several years Northbrook IGA have provided us with food and beverages at no cost for our AGM.

## VOLUNTEERS VOLUNTEERS AND MORE VOLUNTEERS

We need fresh blood. Many of your executives are up for election. The executive cannot run entirely on it's own. We need volunteers for events and Lake Issues. Please help us by volunteering whatever time you can spare.

The following positions are up for renewal. Anyone interested in

ANY position, please contact the executive PRIOR to the AGM.

President  
Secretary/Treasurer  
Director 3 Positions

## **TREASURERS REPORT**

We currently have \$ 1,712.00. We have not collected any dues yet for 1998 and hope to cover the cost of this mailing with our advertising revenue. In an effort to reduce costs and maintain some savings for emergencies we did not print a Fall newsletter. This was a trial and we welcome any comments about this at our AGM. By vote at last years AGM we increased our Association's liability from 1 Million to 5 Million. Our maintenance costs for last summer (insurance, lawn cutting, septic pumping, dock repairs) was just over \$1300.00.

We have no other alternative than to raise the membership dues to \$20.00. This seems to be in keeping with the rising costs all around. Please remember though, we have not had a rate increase in over 7 years.

## **FIREWORKS**

Our Annual Fireworks display was another great success. Our continued thanks to Brian Rumbles and all of those who helped him that day. Everyone who attends this event looks forward to it each

year with great anticipation. Lets keep it going by buying your ticket with your dues. It sure saves your executive time when the ticket sales are done early. We also know how much we can spend. Once again please note THE MONEY COLLECTED IS SPENT ON FIREWORKS. SDRA DUES ARE NOT USED.

Skootamatta Marina once again made a \$100.00 donation to our fireworks and we extend our appreciation for their continuing support to this event.

We have been assured the fireworks used are environmentally friendly and do NOT pose a threat to the fish or land wildlife.

TICKET PRICES REMAIN UNCHANGED . STILL \$15.00 per family. Best priced entertainment north of 7 !

Tickets will be available for purchase at the AGM also.

## **EVENT CALENDAR**

Your SDRA Event Calendar is attached. Please put it on your fridge for easy reference.

If you wish to see an activity that is not on the calendar, please let your executive know before the AGM.

In addition, we will be posting event notices as required during the summer at Skootamatta Marina.

## GET WELL WISHES

It has been brought to my attention that both Mr. and Mrs. John Howard have been under the weather this winter. We extend our wishes for a speedy recovery.

## CONDOLENCES

We wish to extend our condolences to Wilf Farrow and his family in the passing of his wife, Audrey. Mrs. Farrow's son Kent has been a dedicated member of our executive for the past two years.

Further condolences are extended to the family of Audrey Lemmon. Ms. Lemmon was a longtime cottager and I will personally miss her stories of life on Skootamatta Lake.

This section of our newsletter is always a sad part especially for those who were not aware of our community's loss. Word of mouth seems to be the only way we hear of these passings, so if we have not mentioned someone please let us know .

## CLOSING

We hope everyone has a SAFE and HAPPY summer. We hope to see each and every one of you at our AGM. And please remember Every Piece of Garbage Thrown in Our Lake Takes Years to Clean Up. Keep Skootamatta Beautiful.

# WARNING

The Canadian Coast Guard (CCG) has proposed sweeping changes to boating regulations in the areas of vessel licencing, operator proficiency, and enforcement. FOCA has monitored the process closely, and believes that the CCG has recommended to the federal government that the new Canada wide computerized vessel identification system include ALL vessels (ie 40' cabin cruisers, 30' sailboats, 21' runabouts, 13' aluminum fishing boats with 5 horsepower motors, 12' canoes, rowboats, windsurfers, pedal boats, virtually anything that floats!). There will likely be a renewable fee involved every two years for power vessels, and every five years for other boats.

FOCA has been advised that the CCG has also recommended a mandatory operator proficiency system, initially for all operators of recreational boats, 16 years of age and under. For those over 16 years of age, it would be phased in over a period of ten years, based on age. Initially those 16 and under would be required to carry with them proof of having acquired a basic knowledge of boating, and after ten years this would apply to ALL boaters.

If you don't agree with the above, then you should communicate your thoughts to the Commissioner of the CCG, David B. Watters, as shown below TODAY, as legislation and regulations will be finalized in the very near future. Alternatively, you can contact your local MP and tell him/her your views.

# **SKOOTAMATTA LAKE MARINA COUNTRY ROADS RESTAURANT**

**Box 242 Cloyne, Ontario K0H 1K0 613 336-2644**

Summer is finally arriving after a very strange Winter. The ice storm did damage to many trees and some homes, cottage and businesses in the area. We hope no one has suffered too much damage. It had caused water damage to the lower Restaurant. Major renovations have been underway since January and hope to be completed by May 16. July 4, is the SDRA General Meeting and we wish to invite everyone to the Restaurant to see the changes. A Free coffee or soft drink will be available before the meeting for take-out, or if you are rushed for time before the meeting, why not try out our NEW Breakfast Menu, with delicious items for the whole family.

We have also made exciting changes to our Lunch/Dinner Menu with new Entrees and Snacks to meet everyones taste buds. The new menu and our Special Summer Events Listing will be available for pick up in the Restaurant and Store in June.

## **HOURS**
